Turkish Ministry of Energy and Natural Resources, Turkish Consulate General in Houston, Turkish Petroleum Corporation, Arar Corporation, Alpay Energy and Greenberg Traurig LLP cordially invite you to a dinner program featuring “**New Turkish Petroleum Law and Opportunities in Turkish Energy Market**” at **Petroleum Club on July 11, 2013**. The dinner is organized in conjunction with a senior level visit of Turkish Ministry of Energy and Natural Resources and Turkish Petroleum Corporation.

In the last decade, the Turkish economy has shown remarkable performance with its sound macroeconomic strategy in combination with prudent fiscal policies and major structural reforms in effect, integrating the Turkish economy into the globalized world, while transforming the country into one of the major recipients of FDI in its region.

In line with these reforms, Turkish government adopted a new and more liberal Petroleum Law on June 11, 2013 which will simplify transactions and decrease the investment cost for investors by providing competitive, transparent, reliable and stable environment for license applications and evaluation process. By these changes Turkish government aims to increase the participation of domestic and foreign capitals to the exploration activities in Turkey.

The event will offer a unique opportunity for US companies in energy business to learn more about the changes brought by new Turkish Petroleum Law and opportunities in Turkish Energy Market.
